SEND Information Report: The Serendipity School 2020 - 2021

This document describes what we do to support our students throughout their time at The Serendipity School, and during the transition process at Post 16 or Post 18

The Serendipity School

- Provides for up to 20 girls aged between the ages of 9 and 19 who exhibit difficulties associated with their social, emotional and mental health. These may be complicated by additional learning needs.
- Specialises in the education and care of students who have experienced extreme trauma or have identified special educational needs and who would benefit from a placement in a girls-only environment.
- Offers a holistic therapeutic approach which is overseen by our Clinical Psychologist.
- Has an ethos based on the value and concept of 'Respect': respect for yourself, respect for others and respect for the environment.
- Is a positive, safe and secure environment where all students are supported in life-long learning experiences.
- Helps all students to develop more adaptive ways of coping with their difficulties.
- Encourages all students to achieve their full potential and make a positive contribution to society.
- Celebrates and recognises achievement at every opportunity.
- Promotes positive behaviour, positive self-image and encourages all students to become effective communicators.
- Makes use of the local community to enable all students to develop social and team building skills, bringing learning to life.
- Promotes effective working relationships between parents, carers and external agencies.
- Promotes learning outside the classroom through our 'Discovery' Programme.
- Has links with local colleges and providers of 14-16 vocational pathway courses.
- Has a small Post 16 provision with an emphasis on Life Skills, Independence and transition to Post 18 options.

The Serendipity School is an independent specialist provision girls with a broad range of complex issues. All our students have learning difficulties and many have additional needs (for example, Autism, ASD, challenging behaviours, emotional needs, physical difficulties or speech difficulties). The students have typically been excluded from mainstream schools, or have had unsuccessful placements in alternative provision or maintained special schools. Some students are referred at the end of Key Stage 2 from specialist primary provisions as they continue to require a specialist provision for their secondary education.

Our therapeutic approach means class sizes are small and staffing levels are high. Our curriculum, timetable and class groupings are driven by the needs of the students.

1	When are students able to access The Serendipity School?	 All students at The Serendipity School are referred by their Local Authority (LA). Students may: already have an Education, Health and Care Plan (EHCP). have a pending EHCP naming The Serendipity School as the education provider. have emotional, social and/or mental health difficulties. be placed in the residential care of The Serendipity Centre Ltd. (TSCL) or in LA care and have moved out of her school catchment area.
2	How does The Serendipity School know what additional help my child will need?	All students receive individual baseline assessment on entry to The Serendipity School. Assessment for the students is also supported by information from the LA and the school's own commissioned professionals, for example a Speech and Language Therapist. The vast majority of students placed at The Serendipity School have an EHCP, which fully outlines her own area of need and the outcomes expected for each student by the end of a Key Stage, and also inform her Personal Progress Targets (PPTs). The EHCP is formally reviewed once a year during the Annual Review meeting, where progress is discussed and any additional needs or changes are made. Personal Education Plans (PEPs), which are formally reviewed on a termly basis, support all our students who are children looked after (CLA) by the LA and the virtual school. All classes have a high staffing ratio, and each subject leader is able to quickly identify any requirements for additional support.
3	How will The Serendipity School staff support my child?	The provision required is detailed in the EHCP and is further broken down in the goals and targets of her PPTs. Parents'/carers' contributions are actively sought. This is explained to parents/carers during the admission process and at Annual Reviews. Each teaching group has, on average, one subject leader and one learning support assistant (LSA). This will vary according to student need within the group. Class sizes can vary from 1 to 5 students. Students may be taught in whole classes, small groups or 1:1 by the subject leader or LSA. The subject leader plans for all the students in the class, and is responsible for the overall assessment and monitoring of their attainment and progress. The majority of our students in Key Stage 4 access work experience, college opportunities and an enhanced

	learning?	updating their records. School staff meet regularly to share and update assessments, and are able to plan for future learning and progression. Academic progress is monitored using The Serendipity School Levels based on the last set of level descriptors for the National Curriculum, Age Related Expectations (ARE), predicted grades and achievement in external accreditations.
		Homework is set for core subjects which parents/carers are encouraged to support their child with.
		Parents/carers and social workers receive weekly reports, in addition to a progress report in the Autumn Term and the Spring Term as well as an Annual School Report at the end of each academic year.
		Personal Progress Targets (PPTs) show progress towards agreed targets which are evaluated regularly. The PPTs are shared with parents/carers via the STAR Book.
		Parents/carers are invited to the termly PEP review meetings and to the annual EHCP meeting.
		Parents/carers are invited to an annual Home-School Link afternoon to meet with school staff, to discuss their child's progress.
		Additional Home-School Link meetings are arranged for students in Year 11.
6	What support will there be for my child's overall well-being?	The well-being and emotional health of our students, which is supported by our holistic therapeutic approach, is as important as their academic progress. The high staff to student ratio helps to support and develop the emotional well-being of all our students in conjunction with our broad and varied curriculum. Students are also supported through the development of their individual behaviour plans, their individual risk assessments, their 1:1 wellbeing sessions and regular communication with home through the STAR Book.
		Our school has a strong community spirit with many opportunities to experience and share a wide range of activities on and off the school site. Our regular Student Voice meetings enable the students to be involved in decision making regarding their school.
		Exclusions are rare and we work closely with staff and parents/carers to do all we can to proactively improve behaviour.
		Students contribute to goal setting and review at a level commensurate with their abilities.
		All school staff are trained in Team Teach which employs positive behavioural strategies, designed to reduce anxiety, risk and restraint. In addition, all school staff have an up to date first aid qualification, and some have additional training in the administration of controlled medication.

		Fresh fruit is available for all students at break time and all students are provided with a healthy two course meal at lunch time which is prepared on site by our school chef. Students also have breakfast at school every morning. Students with medical needs have individual health care plans and staff are trained appropriately to meet individual medical needs.
7	What specialist services and expertise are available at or accessed by The Serendipity School?	The Serendipity School is able to provide holistic support to all our students and the school staff are highly skilled in meeting the individual behavioural, learning and social needs of students with complex learning difficulties. School staff work with a variety of professionals to best meet the needs of individuals. For example, Speech and Language Therapists, Nurses, CAMHS, Educational Psychologists all work in the school with individuals or groups on occasions, as well as our students working with our in house therapy service in Tranquillity House. Social workers, support workers for Social Care and Virtual School leaders are involved with many of our students and often visit the school to gain a better understanding of specific students and learn how their progress is achieved at school. Specialist careers advice and guidance is provided by Education Business Partnership (EBP). We have an excellent working relationship with the local police force and we also work closely with Barnado's.
8	What training are the staff supporting the students with SEND had or are having?	The Serendipity School has a well-qualified and experienced staff team. All teachers, except those in training positions, are fully qualified to national standards, but also have a wealth of other specific training and experiences. All staff receive a comprehensive and ongoing training programme designed to make sure they are fully equipped to meet the needs of our students. All new staff take part in a detailed Induction Programme, and all new staff are supported regularly throughout their first year by senior staff and designated mentors. All staff receive regular training in Team Teach (positive behaviour management), First Aid, Safeguarding and various other opportunities relevant to their specific job role. Training in school is used to increase and monitor the quality of teaching and learning across all needs and includes five annual INSET days of training. This time is carefully planned to ensure that it is used to extend and further develop staff knowledge and skills, and also to address any key areas of the school development plan for the year.

9	How will my child be included in activities outside the classroom including school trips?	The Serendipity School is a fully inclusive school and we never exclude any students from an activity because of a disability or SEND. Our staffing and teaching strategies are designed to help all our students best access the community and the full range of educational opportunity. All students are encouraged to fully participate in whole school events and activities, both on and off site. The extent to which every student is able to participate will vary according to the individual and her level of need, but activities and expectations will be carefully differentiated in order to support every student. As a school we place huge value on the importance of a balanced and varied curriculum, and on curriculum enhancement activities. All visits and off site activities are fully risk assessed, and carefully planned for. Students are able to take part in regular trips and visits, and parents/carers are communicated with on a regular basis to ensure they are fully aware, at all times, of any off site activities. Group activities will be planned sensitively according to the needs of the majority but with as much support as possible for those who need it. It may well be the case that not all members of a certain group will attend the same outing or trip BUT all should receive similar quality opportunities to meet their individual needs. All school trips are without charge.
10	How accessible is the school environment?	The school is an accessible building with a downstairs teaching space with toilet and changing facility for students who may not be able to access the upstairs teaching spaces. A hearing loop is available for students with hearing difficulties. School staff work with parents/carers to try and facilitate appropriate equipment and resources for individual students. Classrooms and corridors are well lit and well equipped. Where applicable to the individual needs of a child, The Serendipity School will work alongside other practitioners, for example: CAMHS, Occupational Therapists, Paediatricians, specialist nursing support and SALT. Any instances of discrimination in regards to diversity or disability are challenged to maintain and promote a positive environment of respect and understanding. The School's Accessibility Policy is available on request.

11	How will the school prepare and support my child to join the school or transfer to a new setting / school / college or the next stage of education and life?	The Serendipity School has a thorough transition programme to support new students moving to the school. The Serendipity School encourages and supports the child to be part of this transition process by encouraging them to visit the school, attend transition meetings, meet with staff and be part of their reviews once in school. The views of the child are essential in providing a personalised timetable and support. We encourage parents/carers of any new students, who will not be resident in one of TSCL children's homes, to visit the school before the placement is agreed by the LA. All transitions are bespoke in order to reduce anxiety and ensure that the individual needs of the student are met. Transition timetables are planned in consultation with the student, parent/carer and social workers (if applicable) using any relevant information from previous educational settings. All transitions from The Serendipity School are supported to suit the individual need of the student. This may include a slow transition back into mainstream education, taster visits to local colleges or a gradual integration into college which slowly builds the number of hours/days at college while being supported by a part time timetable in school. Many transitions are supported by 1:1 staffing from The Serendipity School LSAs.
12	How are school's resources allocated and matched to student needs?	All students will receive support matched to her own level of need during their time at The Serendipity School. The school is funded in relation to the individual needs of the students. The school receives additional income targeted at set individuals and groups. Records are retained to show how such grants are spent. The school will retain responsibility, in discussion with Virtual Schools and social workers, to ensure that such spending is used to best help educational outcomes.
13	How are parents involved in the school? How can I be involved?	Parents'/carers' opinions and priorities are routinely included in considerations about target setting through the Annual Review of the EHCP. Tutors write a weekly report for each of their tutees which is shared with parents/carers and the LA where appropriate. The school newspaper, 'The Independent', is published on a termly basis. Parents/carers are also invited to events throughout the year, for example, home –school link meetings and workshops focussed on reading at home and homework have been run.

14	Who can I contact for further information?	There are several methods of communication you can make use of, either before admission or during your child's time at The Serendipity School.
		Prior to admission you will be given a named contact at school, this is most likely to be the Head Teacher or the Special Educational Needs Co-ordinator (SENCo).
		You are always welcome to contact the school at any time, by telephone on 02380 422255 (option 2), if there is anything you wish to discuss, or to arrange a tour of the school. An appointment will then be arranged at a mutually convenient time.
		During your child's time at The Serendipity School the first point of contact with the school is your child's tutor. You can also make daily use of the STAR Book, or telephone/email the school if you wish to discuss anything with a member of staff.
		In all instances contact to the main school office by telephone on 02380 422255 (option 2), is welcomed and staff will help parents/carers contact the appropriate person.
		You may find useful information in our Special Educational Needs and Disabilities (SEND) Policy which is available upon request.
		The Head Teacher can always be contacted by parents/carers who wish to discuss any fundamental issues about needs and provision.
15	How do you support young people to move onto the next stage of their life?	The Serendipity School offers a range of opportunities for Post 16 students dependent upon individual needs. The school recognises that at the age of 16, not all young people are ready for the transition to attend a local college. The Serendipity School supports students between the ages of 16-19 in developing further independence skills, life skills and continuing in full time education. Each package is tailored to the needs of the individual student which may include a combination of the following: College courses, part/full time (supported by Serendipity staff as needed)
		 Core skill subjects Life and independent skills courses accredited through ASDAN
		 Work based training and work experience (supported by Serendipity staff as needed)
		A detailed transition programme underpins the Post 16 provision with a clear pathway plan leading to agreed goals and targets.
		All post 16 students will continue to receive relevant pastoral and therapeutic support with a focus on moving

		towards self-determination, increased resilience and independence.
17	people go when they	Most students leave the school at the end of Year 11 to attend further education in local colleges or employment. However, some choose to stay at The Serendipity School to follow a Post 16 pathway and with the school's support access further education in one of the local colleges.
